DECLARATION UNDER 37 C.F.R. § 1.131 BY PATENT COUNSEL

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

I hereby declare that:

1. I am employed at Y.P. Lee, Mock & Partners in Seoul, Republic of Korea. I supervise staff, including the staff that wrote the above-captioned application.
2. I was the supervising counsel for the writing of the above-captioned application.
3. Responsibility for drafting the application was transferred to my firm in May of 2002. See Attachments A-C illustrating our receipt in May 2002. The approximate three-month time period in drafting the application (date of filing was July 29, 2002 for the priority document, Korean Patent Application No. 2002-44631) shows reasonable diligence in preparing and filing the patent application as this is approximate to the average time it takes my firm to draft patent applications in the fuel cell technologies for Samsung. There is no indication when the priority was given to any applications in this particular area of fuel cells and the applications were taken up in chronological order. It is my opinion that the persons responsible worked reasonably hard on the particular application in question during the continuous critical period of May 9, 2002 to July 29, 2002.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful, false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the

United States Code and such willful, false statements may jeopardize the validity of the application or any patent issued thereon.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
